

## 14.06 Firmware Release for the RX371, QX351, and QX501

### Summary

Horner APG announces the availability of Firmware Revision 14.06 for the OCS Controller RX371, QX351, and QX501 models, corresponding with the launch of Cscape 9.6. This is available for download from the firmware section of the US web site, <https://www.heapg.com/support/controller-firmware/> or the European web site, <http://www.horner-apg.com/en/download/ocs.aspx>

### A NOTE ABOUT FIRMWARE UPDATES:

This firmware has been thoroughly tested, and every precaution has been taken to prevent the introduction of new issues that may be problematic in your application. It is always important for customers to perform their own internal system testing prior to deployment of new firmware.
