

PRODUCT UPDATE NOTICE: XL7 Prime and Canvas 7D

Affected Models:

XL7 Prime and Canvas 7D: (HE-CV-070D-XX, HE-XPW1EX, HEXP391C1XX)

Update Summary:

All XL7 Prime and Canvas 7D models are receiving updates, including a new LCD, enclosure, and main circuit board.

Key Changes:

- **Functionality:** No changes to programming or wiring are required.
- **Mounting:** Cutout dimensions remain unchanged.
- **Enclosure:** Depth increases by 11mm (0.43”).
- **LCD Update:** Custom overlays will need adjustment due to LCD changes.
 - The new LCD brightness is comparable.
 - A high-brightness model (1000 cd/m², wide viewing angle, -40°C to +60°C operation) will be available.
- **Ethernet:** The built-in second Ethernet port will be active, eliminating the need for an external adapter.
- **Programming Port:** Transitioning from Type micro USB to Type C USB.
 - Updated programming cables available:
 - **HE-PRGA2C** (Type A USB to Type C USB)
 - **HE-PRGC2C** (Type C USB to Type C USB)
- **Cscape:** Cscape 10.1 or 9.9 SP14 will be required to use this updated version of product.

Action Required:

Customers should review these changes and ensure that the product meets their application.
